Coat Tail Swinging and Other Things.

At Bishopville, last Tuesday, Mr.

He said that there is a class of cotton mills in the state that is controlled entirely in the interest of the holders of a majority of stock, and which do not give the minority stock. holders a look-in for their money. Mr. J. B. A. Mullaly said that Governor Blease had asked him to run for the governorship and he promised that if tackled by Mr. Richards what he would do for that gentleman would be a plenty, "as I have his record in my grip," he said.

Mr. John G. Richards was received with a big demonstration of applause. He argued for biennial sessions of the general assembly and cited figures to show the saving. He paid his respects to the newspaper oligarchy and promised that if it became necessary he would give his reasons why he is opposed to the "other candidate for the United States senate," referring to Senator Smith.

Charles Carroll Simms complained because the newspapers had singled him out among the Blease candidates as being the only one who is unfit for the governorship. The ambassador explained that while mediation would take an indefinite recess tion would take an indennite recess awaiting the outcome of efforts by representatives of the two Mexican factions to solve the internal problems of Mexico, the task of the mediation was not yet concluded, though an essential part of its work had been accomplished. #### Regarding the Monument

The Monument is the sole product of man which is expected to exist without change or repair, for all time—beyond the memory that we cherish in our hearts, which is only as long as the span of life. It may help to form a record, but it is erected as a tribute of love to those who have passed "to that bourne from whence no traveler ever returns." As such, let it be a thing of beauty, not dark and somber, but bright cheerful; not typifying earthly sor-row, but symbolizing undying love. And as architecture is brought to us from the past by the tombs of the ancients, so let us pass on to those in our steps, some worthy expression of our conception of beauty.
